

This document provides detailed information on the module named below. It will be updated as necessary when modifications to the module are approved. Modules are allocated to a Subject Network not a programme, and may be accessed by students studying on different programmes.

1 SUMMARY MODULE INFORMATION

a Module title

Developing Communities.

b SITS module code

UL711911

c UHI Subject Network

Sustainable Science, Heritage and Development.

d Exam board

MSc Managing Sustainable Rural/Mountain Development Course Committee.

e SCQF level

11

f SCOTCAT credit points

15

g Module leader and contact details (email, phone)

Roddy Murray

rodny.murray@lews.uhi.ac.uk

Tel: 01851 770469

For 2010/11 this module will be taught by Eilidh MacPhail

Eilidh.macphail@lews.uhi.ac.uk

Tel: 01851 770463

h Brief description of module

The module traces the recent history of grassroots participation in the design and implementation of rural community development.

i Pre-requisites or co-requisites

An undergraduate degree award.

j Primary mode(s) of delivery and support

(e.g. Face-to-face teaching, blended, block teaching, wholly online, etc).

Wholly online, supported by tutor.

k Assessment

Essay, report, and online discussion.

l Suitable for access via Learning Centres?

Yes.

2 MODULE DESCRIPTOR

a Aims

To explore concepts and mechanisms that encourage the processes of community development. To provide an understanding of social, cultural, political and economic perspectives in the pursuit of sustainable development of rural communities.

b Intended learning outcomes

On completion of the module the student should be able to:

- demonstrate an understanding of the different approaches in development models and an ability to evaluate their effectiveness;
- evaluate the main operational problems and opportunities which occur in the support of sustainable community development;
- analyse case studies that attempt to apply key aspects of theory and practice of community development.

c Indicative content

The subject has an inter-disciplinary approach, and students begin with an analysis of three case studies of community development initiatives in the context of rural planning and development. In particular, students will explore the organisational structure of rural communities, and their abilities to complement and conflict with regional economic planning and development structures. Students will then be encouraged to consider different approaches of local communities towards stimulating a more effective involvement in the development cycle of reflection- planning – action – evaluation – reflection. Examples of endogenous development by rural communities will be used to analyse trends and future opportunities for sustainable community development with reference to documented international examples.

d Mode(s) of delivery and support for teaching and learning

Face-to-face	0 hours or	... %
Video-conference	0 hours or	... %
Supported online learning	40 hours or	... %
Self-directed learning	110 hours	... %
Total activity	150	100%

e Assessment

Collaborative Project 1500 words (45%)
Case Studies Analysis 2000 words (45%)
Participation in the module discussion board (10%)
