Whether you know what you want to study, or have no idea at all, our Open Events give you a taste of life here at Perth College UHI.

For more information on details and dates throughout the year:
www.perth.uhi.ac.uk | 01738 877 000 | pc.marketing.perth@uhi.ac.uk

Check out the great stories on our blog.

We post articles every week on a wide range of topics, including:

Department Focus articles: showcasing what goes on behind the scenes within our subject areas.

A day in the life of a student: hear from various students as they share their experience about life at Perth College UHI.

Alumni stories: what are our graduates doing now?

Staff spotlights: hear how our staff go the extra mile for our students.

www.perthcollegeuhiblog.com
Through the partnership, we are making it easier for people to take part in quality higher education across the region.

The only university wholly based in the Highlands and Islands of Scotland, the partnership allows students to access everything from Higher National Certificates (HNCs) and Higher National Diplomas (HNDs) to degrees, post graduate study, research and professional qualifications.

Each institution has its own character and contributes to the distinctive organisation that is the University of the Highlands and Islands.

For more information, visit: www.uhi.ac.uk

We have a great range of food services across campus.

We have food courts in the Brahan and Goodlyburn Buildings, two Costa outlets, one Starbucks and a shop!

www.perth.uhi.ac.uk/student-life

Highlands and Islands Students Association (HISA) – Perth is run by Perth College UHI students.

Once you are a student of Perth College UHI, you automatically become a member of HISA Perth.

This is an association for the students, run by students, to make the student life and experience on campus awesome! It operates to represent your views on all aspects of the college and student life.

The team of three student officers are elected by you, to be your voice and have your best interests at heart. HISA Perth encourage students to have their say, helping to shape future developments and plans at Perth College UHI.

HISA Student President

HISA Perth
The Scholarship programme is designed to help you to develop your skills to reach your full potential in your chosen field.

Some scholarships offer a financial reward or mentoring, whilst others pay for expenses towards work experience in prestigious locations.

To see the full range of scholarships, and apply: www.perth.uhi.ac.uk/scholarships

If you have a specific query about the Alumni Association, or Scholarships, you can contact:

Fiona Leslie
Development Trust Manager
01738 877 215 or fiona.leslie.perth@uhi.ac.uk

Library

We have a custom-built, modern space housing over 30,000 books, journals and multimedia items.

As you progress through your course, you will have assignments to complete and exams to sit. The library facilities and services can help you to prepare for them and achieve better results.

The library study areas are located on the first and second floor in the Brahan building. www.perth.uhi.ac.uk/library

Fees and Funding

Your education is a big investment, but it’s an investment that will almost certainly pay off in the future. It’s important to think carefully about the costs of your course, and the cost of living beforehand, and to work out the best way to manage your money and finance your studies.

Main Costs
Tuition fees - the fees charged by us to teach you.

Students on full-time courses at SCQF Levels 2-6
Fees are waived for those eligible (eg Scottish/EU students).

Students on full-time courses at SCQF Levels 7-11
Funding can be sought for tuition fee payment via SAAS, but you will be responsible for payment if SAAS do not pay your fees.

Rest of UK (RUK) students
For students living in the rest of the UK (England, Wales and Northern Ireland) studying a full-time degree, please visit: www.perth.uhi.ac.uk/student-services/student-fees-and-funding

Please note: this information is for guidance only, in good faith, and may be subject to changes in government funding criteria.

Living expenses - your accommodation, food, clothing etc
Depending on where you live, and your personal circumstances, you may be eligible for financial assistance in the form of loans, grants and bursaries. This guide provides an overview of what you may be eligible to receive, but funding depends on a variety of factors - including the course you choose, where you live and if you have had funding before.

You should look for student finance as soon as you apply, even if you have not yet been offered a place.
First opened in September 2016, our multi-million pound Academy of Sport and Wellbeing (ASW) offers a friendly sport and leisure facility to students, staff and members of the community.

The ASW is our fantastic leisure and wellbeing facility based at our Crieff Road campus. It provides modern training facilities for students based in the building studying Sport and Fitness; Hairdressing; Beauty Therapy and Wellbeing courses, as well as cross college and wider curriculum use.

The ASW also offers the opportunity to develop aspects of applied health to ensure that our students and external partners are jointly supporting key economic and social needs. We are committed to engaging with industry bodies and community groups, providing students with work experiences in their chosen field of study.

In sport, we have already worked with Mountaineering Scotland, Netball Scotland, SportScotland Institute of Sport, Scottish Disability Sport, Futsal Scotland and are continuing to grow this network.

Student Membership from £10 per month

www.perth.uhi.ac.uk/ASW

On campus, we have 72 en-suite bedrooms with shared kitchen/dining and lounge areas.

Being a parent shouldn’t stop you from coming to college, as we have lots of help available.

Many of our students are parents and we have multiple resources available to help you arrange for childcare, including an onsite nursery.

www.perth.uhi.ac.uk/student-services/college-nursery/

Priority is given to first year students, and spaces fill up fast, so look out for applications opening each April.

For more information, please see:

www.perth.uhi.ac.uk/student-life
Supporting you every step of the way

Our student services reception is based at the heart of our campus, next to reception in the Brahan building. This allows you to access help and advice quickly and easily.

Coming to College usually has a considerable effect on people’s lives: from the decision making and application stage, all the way to enrolment, induction and then ongoing throughout your studies. We try to make coming to College as easy as possible but there may be times when you need somebody to talk to about any concerns you have during this journey. Student Services provide friendly and confidential services and support, where you are able to talk over your problems in private, and we refer you on to specialist agencies if required.

www.perth.uhi.ac.uk/student-services

Learning Zone

The Learning Zone provides a service for students who need some support to be successful on their course.

We offer:
• One-to-one study skills appointments
• Study groups
• Workshops
• Dyslexia Screening appointments
• Telephone/online appointments
• Online help materials

Support is available to assist students with Communications and Numeracy core skills modules. Learning Zone staff are based on the top floor of the Study Centre. Contact the Learning Zone Team to make an appointment.
learningzone.perth@uhi.ac.uk or 01738 877372

We have strong links with local and national employers. Each subject area has its own links which benefit you, allowing you to get industry experience and add it to your CV.

We offer:

Our dedicated Careers Advisors

 Careers and Employability Service
Over the last 5 years we have had between 400 and 500 pupils from S3 to S6 attending our courses every year. The courses range from SCQF Level 4 to 7, and are delivered in several Perth and Kinross schools as well as at our Crieff Road campus. Some courses are delivered online.

For enquiries about these courses, please first speak to guidance staff at your school.

The School College Partnership has been established for over 10 years, and allows pupils from S3 to S6 a greater choice in a variety of subject areas, to develop practical, vocational and academic skills.

School-College Partnership

Schools, Colleges and employers are now working in partnership to offer senior phase students’ opportunities to attain industry-recognised qualifications along with academic studies.

Foundation Apprenticeships are now working in partnership to offer senior phase students’ opportunities to attain industry-recognised qualifications along with academic studies.

Each programme includes workplace activity and a work placement, which enhances the skills required within the workplace and gives pupils the chance to gain these skills in a real working environment.

On completion of the Foundation Apprenticeship, students will be equipped with an enhanced CV enabling them to make an informed choice of either pursuing a Modern Apprenticeship, going to College or university or moving into employment having gained confidence in their skills for the workplace.

Foundation Apprenticeships are a work-based learning qualification for secondary school pupils, and run over either one or two years in S5 and S6. At SCQF Level 6, they are an exciting opportunity supported by Skills Development Scotland (SDS) and the Scottish Funding Council (SFC) and were developed to support greater industry engagement with education, supported by input from the European Social Fund (ESF).
To find out more about our full range of courses, visit: www.perth.uhi.ac.uk

To find out more about our courses, or to arrange a department visit, please contact: bmcl.perth@uhi.ac.uk

We talk to employers locally and nationally to ensure that all our courses provide the most current knowledge and skills required. Students can expect to be developing and applying their new skills from day one.

There is an increasingly strong demand for computing professionals and job opportunities are growing, fuelled in part by the pandemic pushing lots of business online.

There's the opportunity to be involved in carrying out real-life projects such as creating apps and websites for clients looking for business support, allowing you to gain invaluable client-focused experience for your future career.
**Management**

**Today, successful people have a high level of expertise and knowledge, and employers expect staff to be qualified in a range of core skills.**

You can combine work and study, demonstrating your academic credentials and determination to be a professional manager. Chartered Management Institute (CMI) courses and MBA programmes may help you towards becoming a senior member of management.

- MBA* Executive

If you’re interested in a future in the sports industry, there’s no better place to learn than at Perth College UHI. The Academy of Sport and Wellbeing (ASW) provides an outstanding learning environment on campus.

The ASW is equipped with a multifunctional sports hall, gyms, strength and conditioning suite, fitness studio, and Climbing Centre. The natural landscape offers the perfect learning environment, our students get hands-on experience in one of the most beautiful settings in Scotland. We work in partnership with Willowgate Activity Centre, allowing all our students to experience a range of outdoor activities, skills and paddle-sports.

We work in close partnership across the sector with a number of professional/governing bodies of sport including: Badminton Scotland, Netball Scotland, Basketball Scotland, Scottish Hockey, Cricket Scotland, Scottish Volleyball, Scottish Canoe Association, Scottish Football Association and Mountaineering Scotland, Sports Massage Association, Scottish Massage Therapists Organisation, ACTIVE IQ, CIMSPA and RLSS UK.

To find out more about our courses, or to arrange a department visit, please contact: bmcl.perth@uhi.ac.uk

It is possible to study the BSc (Hons) Sport and Fitness as a 4 year course, or by entering year 3 after completing a relevant HND.

To find out more about our full range of courses, visit: www.perth.uhi.ac.uk
Creative Industries

If you are determined, enthusiastic and creative, you can develop your professional ambitions. You can study across disciplines such as web design, painting, film-making, illustration, graphic design and sculpture.

We offer art studios and digital editing suites, industry standard software, expert staff and professional networks. We will provide career pathways – through community collaborations, work placements, professional practice and extra-curricular opportunities with local and national partners.

If you are determined, enthusiastic and creative, you can develop your professional ambitions. You can study across disciplines such as web design, painting, film-making, illustration, graphic design and sculpture.

Music and Music Business

Within our friendly community you will develop your creative practice, vocational and musical identity. With a long-established track record, we aim to ensure a positive, learning experience and equip you with a skill set valued by the professional industry.

Our courses provide a springboard to employment within this creative and diverse sector. We aim to give you a comprehensive view of the music industry. Students benefit from guest lectures representing industry organisations previously including Universal Music, PRS For Music, Vic Galloway (BBC Broadcaster, Presenter and Journalist), Keith Harris (Stevie Wonder’s Manager), Idlewild, Glasvegas, Creative Scotland and Perth Music Expo.

To find out more about our courses, visit: www.perth.uhi.ac.uk

To find out more about our full range of courses, visit: www.perth.uhi.ac.uk
Theatre Arts

If you are interested in a career in the performing arts industries, then our Musical Theatre courses are ideal.

The courses will prepare you to cope with the demands of current professional practice and will develop your skills in singing, dancing, and acting through a range of performance opportunities and training.

Working in tandem with students on the Technical Theatre courses, you will also gain an understanding of the complete production process and develop your collaborative skills.

Air Service Training (AST)

AST provides services seeking to meet individual customer needs: engineer training to EASA Part 66; bespoke training; consultancy in aviation training, maintenance and regulatory matters.

We deliver our services as a partner to the client, seeking to proactively meet all client needs and aspirations. We operate to an ethical business practice using industry standards, and a ‘people first’ philosophy.

Approved Basic Part 66 Course
AST’s approved category B courses last for 89 training weeks. The result is an approved status, you’ll be ready to qualify for your full license after further professional experience.

Part 66 Modular Courses
Flexible short modular course programme, providing the theoretical knowledge and examinations required for advancement to Aircraft Engineer or for removal of current licence limitations.

Part 66 Zero to Hero
AST offers a Modular Programme titled the ‘Zero to Hero’ Course and this course will cover all of the Modules in relation to the B1.1, B1.2, B1.3 and B2 Licence Categories.

www.perth.uhi.ac.uk
Courses are grouped into two: Motor Vehicle and Motor Vehicle Body and Painting, both which can be followed on a full-time programme or an apprenticeship.

The department has seen significant investment and updating of equipment, which means students can practice the skills and practical experience at the same level of facilities they would find in commercial companies.

Areas of employment could include on-shore and off-shore renewables, manufacturing, aerospace, transport and logistics, whether you’re interested in building and maintaining machines, or want to work in the lucrative energy or oil and gas sectors.

An engineering qualification provides a sound basis for a number of careers, as employment prospects for engineering and technology students are strong.

To find out more about our courses, or to arrange a department visit, please contact: stem.perth@uhi.ac.uk

To find out more about our full range of courses, visit: www.perth.uhi.ac.uk
Built environment refers to the human-made surroundings that provide the setting for human activity, ranging in scale from buildings to parks and infrastructure networks.

Looking towards the future, the construction industry is becoming more sustainable by creating new disciplines such as: urban design; renewable technology; materials engineering; and environmental building science.

Scotland hosts one of the largest life sciences clusters in Europe and is a key growth sector, in recognition of its potential to boost the economy.

Our campus is fitted with excellent laboratories, fully equipped to help students learn in a comfortable and professional environment. We offer a range of opportunities to develop your career in the field of science.

To find out more about our courses, or to arrange a department visit, please contact: stem.perth@uhi.ac.uk

This is a growth industry requiring new and talented people to enter the workforce. We help students become well-qualified and motivated specialists, delivering what children and their families expect in this positive and valued sector.

The Scottish Government policy to increase free early learning and childcare entitlement shows a commitment towards making Scotland the best place in which to grow up.

The growing health and social care sector is due to the growing number of people with complex health and social care needs, both in Scotland and internationally.

The department can help your ambition of making a difference to people's lives into reality and provides opportunities for people who have been out of full-time education or moving on from school or other learning environments.

To find out more about our full range of courses, visit: www.perth.uhi.ac.uk

To find out more about our courses, or to arrange a department visit, please contact: als.perth@uhi.ac.uk
The study of social sciences will stimulate your curiosity about the changing world in which we live and equip you with the capacity to critically analyse it.

A humanities and social sciences qualification gives you the skills and knowledge that you need for a career working with people, their cultures and society for a broad range of professions – from social work to teaching.

We are a dedicated, qualified and specialist team with extensive experience teaching and supporting students who benefit from additional support for their learning.

Students will study core subjects focusing on independence, citizenship and employability. Options can be chosen from a range of creative and vocational subjects such as: music, computing, horticulture and cooking.

To find out more about our full range of courses, visit: www.perth.uhi.ac.uk
Choosing from full or part-time courses, students gain confidence, experience and qualifications. They will work closely with colleagues across the college and our wider community to make successful transitions into further study or employment.

Not everyone knows what they want to study when they leave school, and some may need support to follow their chosen career path.

To find out more about our full range of courses, visit: www.perth.uhi.ac.uk

To find out more about our courses, or to arrange a department visit, please contact: als.perth@uhi.ac.uk

Centre for Mountain Studies

MSc Sustainable Mountain Development

This postgraduate module is an online, part-time interdisciplinary programme with exit awards at Postgraduate Certificate (PgCert), Postgraduate Diploma (PgDip), and MSc levels.

Water Management CPD Award

This postgraduate module introduces the key concepts of water management, beginning with the natural physical processes and going on to examine the ways water is used as a resource from source to sea.

Sustainable Deer Management CPD Award

This postgraduate module covers a range of areas, including: the policy and institutional context for deer management in Scotland; deer ecology and behaviour (including population dynamics); deer management planning; and a review of the science behind deer management.
